HIGH TECHNOLOGY AND MAXIMUM BREATHING COMFORT WITH SCUBAPRO REGULATORS

SCUBAPRO FIRST STAGE REGULATORS

First stage regulators are divided into piston and diaphragm categories.

SCUBAPRO PISTON TECHNOLOGY

The general advantage of a piston first stage lies in its reliability and reduced maintenance requirements. More importantly, no other design can reach the high air delivery rate of a balanced piston controlled first stage.

First stages with air-balanced pistons deliver significantly more air to the second stage than any other first stage. This technology is featured in our MK25 first stages.

Classic downstream piston -. The classic downstream valve is the first choice of diving centers and rental facilities worldwide for warm and moderate water temperatures. This technology is featured in our MK2 PLUS first stage.

SCUBAPRO DIAPHRAGM TECHNOLOGY

Diaphragm-based first stages are environmentally sealed so water cannot enter the inner mechanism. Diaphragm first stages have been the favored choice of cold water divers and those working in contaminated or muddy water. This technology is featured in our MK17 and MK11 first stages.

SCUBAPRO SECOND STAGE REGULATORS

A high quality second stage can significantly reduce stress and enhance diver safety by providing a smooth, low-effort breathing response, resulting in ample yet controllable quantities of air.

AIR-BALANCED VALVE TECHNOLOGY

The air-balanced valve technology of SCUBAPRO second stages features a balancing chamber in the second stage mechanism, slightly offsetting the force of the downstream air entering from the first stage. Air-balanced valve technology is featured in X-Series, S-Series and G-Series second stages. For best results, they should be teamed with balanced first stages like the MK25 or MK17.

MK25 EvoT / S600T Titanium

First stage

- ▶ Titanium construction
- ▶ All the benefits of the regular model plus;
- ▶ Cold water XTIS (external thermal insulating system)
- ▶ Improved cold water performance by 30% in waters down to 2°C
- ▶ Blue decal

Second stage

- ▶ Titanium internal barrel
- ▶ Technopolymer body and components
- ▶ Peak performance air-balancing system
- ▶ Air-balanced linear-flow valve
- ▶ Diver adjustable venturi-initiated vacuum assist (VIVA)
- ▶ Super-flow hose

Item No.	Detail
X12.780.400	MK25 EvoT / S600T

MK25 / S600 DEEP BLUE TI-CORE

First stage

- ▶ Jewel colored deep blue PVD exterior finish guarantees scratch and corrosion resistance
- ▶ Balanced high performance first stage
- ▶ Externally adjustable intermediate pressure
- ▶ 5 LP ports and 2 HP ports on a swivel turret

Second stage

- ▶ New Titanium Core 2nd Stage: titanium interior barrel
- ▶ Jewel colored deep blue PVD exterior finish guarantees scratch & corrosion resistance
- ▶ Peak performance air-balancing system
- ▶ Air-balanced linear-flow valve
- ▶ Diver adjustable venturi-initiated vacuum assist (VIVA)
- ▶ High comfort orthodontic mouthpiece

Item No.	Detail

MK25 / S600 BLACK TECH

First stage

- ▶ PVD black finish
- ▶ Balanced high performance first stage
- ▶ Air-balanced flow-through piston design
- ▶ 5 LP ports and 2 HP ports on a swivel turret
- ▶ Anti-freeze protection

Second stage

- ▶ Technopolymer body components with PVD black styling
- ▶ Peak performance air-balancing system
- ▶ Air-balanced linear-flow valve
- ▶ Diver adjustable venturi-initiated vacuum assist (VIVA)
- ▶ High comfort orthodontic mouthpiece

Item No.	Detail

QUALITY.
SINCE 1971,
OUR MAIN
COURSE.

DX 200 High performance, minimum weight.

Meet DX200 - one of the lightest double-balanced regulators on the market. The **first stage** diaphragm, with its small size, ensures consistent performance at high depths even with low pressure in the cylinder.

DX200 offers the ability to externally adjust intermediate pressure, ensuring maximum simplicity during maintenance. The balanced **second stage** allows for control of the inhalation effort and Venturi effect to maximize ease of breathing. New Luxury Treatment Technology ensures DX200 stays both scratch and corrosion resistant.

SG10 SET

Smooth and dependable, a worry free regulator

First stage

- ▶ Classic downstream piston
- ▶ Chrome plated marine grade brass
- ▶ Ports: 1 HP and 4 LP
- ▶ Cold water tested under EN250

Second stage

- ▶ Preset Powerflow downstream valve
- ▶ High flow exhaust
- ▶ Adjustable dive and pre-dive control

DIVE CENTRE PACKAGE

"DEEP DOWN YOU WANT THE BEST"
Now you can have the best at a price you can afford

A combination of the bulletproof Scubapro MK2 regulator set and the outstanding T-One BCD. The MK2 has an unrivaled reputation within the dive industry for unhindered and continued use, whilst this latest edition of the stylish and practical T-One BCD sets a new standard in looks and longevity.

The SCUBAPRO set includes:

T-One BCD - 4th Generation

- ▶ Heavy duty 'colour lock' cordura 1000 denier exterior
- ▶ Comfortable nylon 420 denier interior
- ▶ Carbon reinforced shoulders
- ▶ Balanced power inflator
- ▶ Internal octopus/console holder
- ▶ Padded cummerbund and backpack
- ▶ Available in size: XXS, XS, S, M, L, XL, XXL

R095/R095 Octopus

- ▶ Classic downstream valve
- ▶ Full metal valve housing
- ▶ Preset VIVA
- ▶ Left or Right hose configuration
- ▶ Superflow hose
- ▶ High comfort orthodontic mouthpiece

MK2 EVO 1st Stage

- ▶ Industry renowned 'workhorse' regulator
- ▶ Standard piston design
- ▶ New XTIS (extended thermal insulating system)
- ▶ 50% increase in freezing resistance
- ▶ 4 LP ports & 1 HP port

Console 2

- ▶ Pressure gauge 400bar
- ▶ Depth gauge 60m with parabolic scale & maximum depth indicator
- ▶ Lightweight & compact
- ▶ Loop on case to attach a safety lanyard
- ▶ Fluorescent dials

X-FORCE BCD

A powerhouse of features for the passionate diver

- ▶ Durable high-resistance Cordura 500 exterior with 420 denier interior.
- ▶ Stainless steel super cinch tank band plus adjustable trim pockets
- ▶ One hand operation quick release integrated weights
- ▶ Octopus holder on both sides
- ▶ Air-net backpack and soft neck protection plus shoulder pads for maximum comfort
- ▶ 6 stainless steel D-rings
- ▶ Adjustable chest strap and knife grommets
- ▶ Top and bottom dump valves
- ▶ Balanced power inflator

EQUATOR BCD

- ▶ New easy-to fold small back pack for lightweight travel
- ▶ Water draining airnet back padding for super comfort
- ▶ Includes SCUBAPRO BPI inflator, corrugated hose, elbow and low profile dump valves using the latest technology for full safety and comfort
- ▶ New shoulder line piping
- ▶ Super cinch tank band with redesigned double tank straps, lightweight plastic buckle and easy-insert webbing
- ▶ Fabric: nylon 420 D / nylon 420 D
- ▶ New integrated weight pockets with low-profile buckles
- ▶ High quality anti-scratch patches on sides and shoulders
- ▶ 6 stainless steel D-Rings, knife grommets and 2 zipper pockets
- ▶ QR rotating shoulder buckles
- ▶ Soft neck finishing
- ▶ Octopus pockets on both sides

X-BLACK BCD

Unrivalled comfort and packed with new features

- ▶ Exclusive AirFlex system guarantees high stability and control.
- ▶ Ergonomic cut and fully adjustable cummerbund
- ▶ Air-Net backpack and soft neck protection
- ▶ Durable 1000 denier nylon exterior and lightweight 420 D interior
- ▶ Stainless steel super cinch tank band plus adjustable trim pockets
- ▶ Quick release integrated weights
- ▶ 2 Zip pockets and octopus holder on both sides
- ▶ 7 stainless steel D-rings and knife grommets
- ▶ Adjustable chest strap
- ▶ Balanced power inflator

SIDEMOUNT

Join the growing number of divers experiencing sidemount diving. Originally conceived as a specific cave diving layout, allowing better maneuverability in small spaces. Sidemount diving has now become more widespread with divers taking this configuration into a variety of environments. SCUBAPRO's modular design and compact independent air cell, developed in coordination with leading sidemount cave divers, is available in two sizes. It provides guaranteed quality and a configuration for every diver's needs.

- ▶ Modular approach
- ▶ Compact independent aircell
- ▶ Two aircell sizes: 12 / 20 liters lift (25 / 45lbs.)
- ▶ Soft Airnet finished backpack
- ▶ Compatible with current X-TEK Steel and aluminum back plates
- ▶ Stainless steel grommets, D-rings and handles
- ▶ New Dump valve, corrugated hose and BPI
- ▶ Specific streamlined elbow
- ▶ Bungee and hooks for tank support
- ▶ Fully adjustable, easy to wear and configure
- ▶ Harness includes crotch strap
- ▶ Side bungees for streamlined shape
- ▶ Optional top cover for total streamlining and increased durability

X22.182.000	Form Harness

X-TEK PURE HARNESS

- ▶ Stainless steel back plate with "tri-glide" fasteners
- ▶ Secure continuous webbing provides custom fit
- ▶ Stainless steel waist buckle
- ▶ Back plate storage pack to fit large SMB
- ▶ 2 shoulder and 1 left D-ring on the waist belt
- ▶ 50mm crotch strap with two stainless steel D-ring

Item No.	Detail
X22.179.000	Pure Harness

X-TEK PRO HARNESS

- ▶ Pro-harness-system with QR-buckle
- ▶ Padded shoulder straps with 4 stainless steel D-rings
- ▶ Back plate storage pack to fit large SMB
- ▶ Backplate not included
- ▶ Crotch strap not included

Item No.	Detail
X23.805.000	Pro Harness Only

BUOY POCKET

For Horse Shoe Wing (HS)

Item No.	Detail
X23.817.000	Buoy Pocket

SHOULDER PADS

Shoulder pads for the ultimate comfort.

Item No.	Detail
X23.809.000	Shoulder Pads

BACKPLATE

- ▶ Optimizes stability
- ▶ Ergonomic shape for maximum comfort & the elimination of backache
- ▶ Plenty of options to attach storage pack and various accessories
- ▶ Available in stainless steel or lightweight aluminum

Item No.	Detail
X23.800.000	Backplate - S. Steel
X23.801.000	Backplate - Aluminum

BACKPLATE STORAGE PACK

- ▶ Attaches to plate for additional space to carry accessories

Item No.	Detail
X23.808.000	Backplate Pockets

SOFT TRAVEL BACKPLATE

- ▶ Replaces metal backplate
- ▶ Includes 2 x super cinch tank straps
- ▶ Only compatible with FORM harness

Item No.	Detail
X23.807.000	Soft Travel Backplate

SINGLE TANK ADAPTER

- ▶ Attaches to extend the stainless steel back plate for dives with single tanks
- ▶ Includes two super-cinch straps for the optimum tank attachment

Item No.	Detail
X23.802.000	Single Tank Adapter

WEIGHT POCKETS

- ▶ Weight pocket system
- ▶ Quick release buckle for divers seeking releasable weight pockets to their BC system

Item No.	Detail
X23.803.000	Weight Pocket

DIVE CENTRE PACKAGE

Classic downstream piston first stage joined with a preset Powerflow downstream valve second stage for reliable performance. Combined with a practical feature rich BCD to offer a set perfect for new divers and rental operators. SubGear is manufactured by Scubapro.

The **SUBGEAR** set includes:

Drift II BCD

- ▶ Durable and lightweight 420 denier nylon
- ▶ Balanced Inflator
- ▶ Large cargo zip pockets and 6 D-rings
- ▶ Simple gravity release weight pockets (Drift 1 only)
- ▶ Standard tank strap lightweight easy to use buckle
- ▶ Comfortable padded backpack and chest strap
- ▶ Available in sizes: XS, S, M, L, XL, XXL

SG10 1st Stage

- ▶ Downstream piston technology for reliability and easy maintenance
- ▶ 1 HP and 4 LP ports
- ▶ Powerflow (OFD) downstream valve
- ▶ Compact design
- ▶ Cold water tested under EN250.

SG10 2nd Stage

- ▶ Powerful downstream valve
- ▶ High flow exhaust
- ▶ Pre-tuned inhalation effort
- ▶ Adjustable dive and pre-dive control
- ▶ Left or Right hose attachment

SG10 Octopus

- ▶ Preset Powerflow downstream valve
- ▶ High flow exhaust
- ▶ Adjustable dive and pre-dive control
- ▶ 1m long yellow hose, yellow cover

Console 2

- ▶ Swiss engineering
- ▶ High definition with fluorescent backgrounds
- ▶ 0-6000 psi or 0-300 BAR analog pressure gauge
- ▶ Oil filled depth gauge with max depth indicator
- ▶ 200 feet max operating depth
- ▶ Available in metric and imperial

SUBGEAR

Available Sizes	XS	S	M	L	XL	XXL
Lift Capacity in Kg.	8	12	15	16	18	18

DRIFT 1 BCD

An excellent all-around BC popular with dive professionals

- ▶ 3D bladder construction
- ▶ Knife grommets x 3
- ▶ 420 denier nylon
- ▶ Subgear balanced inflator
- ▶ 3 dump valves
- ▶ Cargo zip pockets
- ▶ Easy release weight pockets
- ▶ Plastic D-rings

Item No. Detail

G822.118 Drift 1

Available Sizes	XS	S	M	L	XL

REBEL BCD FOR CHILDREN (8-12 years)

The only buoyancy compensator that 'grows' with the child. Interchangeable cummerbund and adjustable shoulder buckles ensure one size fits all

- ▶ Full featured BC for children
- ▶ One-hand-pull dump
- ▶ Padded backpack
- ▶ Padded cummerbund
- ▶ One size fit all
- ▶ S for age 8 - 10 , M for age 10 - 12
- ▶ Includes small and medium cummerbund
- ▶ Optional weight integration

Item No. Detail

G821.222 Rebel

DIVE CENTRE PACKAGE

seac®

“STRENGTH AND DURABILITY”
Stand out from the crowd with Italian styling and ‘HiFlex’ hoses

A reliable and simple piston first stage, enhanced by sturdy, lightweight second stages; further complemented with Hiflex hoses as standard. Combined with the super comfortable and robust Eco BCD. Great value and superb looks.

The SEAC set includes:

Ego BCD

- ▶ 1000 denier cordura exterior
- ▶ 500 denier nylon inner bladder
- ▶ Balanced inflator
- ▶ 4 stainless steel D-rings
- ▶ Internal octopus pockets on both sides
- ▶ Comfortable padded backpack and chest strap
- ▶ Available in size: XXS, XS, S, M, L, XL

X-5P / P-Synchro 1st Stage

- ▶ Balanced piston
- ▶ 1 HP and 4 LP ports
- ▶ Compact design
- ▶ Cold water tested under EN250.

X-5P / P-Synchro 2nd Stage

- ▶ Ultralight technopolymers
- ▶ Lightweight and flexible Hiflex hoses
- ▶ Exhaust port with increased air passage
- ▶ Pre-tuned inhalation effort
- ▶ Adjustable venturi (dive and pre-dive control)
- ▶ OWS rubber covers

X-5P / P-Synchro Octopus

- ▶ Durable emergency second stage
- ▶ Ultralight technopolymers
- ▶ Original Hiflex yellow hose included (100cm)

Console 2

- ▶ Patented coil design pressure gauge
- ▶ Fluorescent dials
- ▶ 0-6000 psi or 0-300 BAR analog pressure gauge
- ▶ Oil filled depth gauge with max depth indicator
- ▶ 70m maximum operating depth

Available Sizes	XXS	XS	S	M	L	XL
Lift Capacity in Kg.	9.7	10.2	11.2	15.3	17.3	18.3

SHERPA BCD

- ▶ The perfect marriage of style, performance and comfort
- ▶ Abrasion resistant 1000 cordura material
- ▶ Q & S integrated weight system
- ▶ 3D effect bladder for improved stability
- ▶ Angled D-rings
- ▶ Chest strap

Item No.	Detail
B0420001	Sherpa

Available Sizes	S	M	L	XL	XXL
Lift Capacity in Kg.	17	20	20	24	24

FEMME BCD

Designed for female divers

- ▶ Feminine cut with particular attention paid to the hip zone for female comfort
- ▶ Bellows to optimize the diving comfort (pre/post-dive)
- ▶ Frame-to-Back Evolution system with double adjustments
- ▶ Innovative weight system to guarantee safety and practicality
- ▶ Soft comfort shoulder straps with soft-padded draining collar
- ▶ Cordura 1000 denier PU coated outer material
- ▶ Nylon 420 denier PU coated bladder material
- ▶ 3 dump valves
- ▶ Rear trim pockets
- ▶ 4x40mm + 2x25mm stainless steel D-rings

Item No.	Detail

PRO 2000 HD BCD

Intuitive, practical, and simple

- 1000 denier cordura exterior
- 500 denier nylon inner bladder
- Balanced inflator
- Q&S integrated weight system and rear trim pockets
- Comfortable frame to back evolution system
- Bellows bag to maximize buoyancy
- 7 stainless steel D-rings (3 angled)
- Internal octopus pocket
- Sizes from XXS – XL shown on external size label
- Adjustable chest strap

U-LINE CONSOLE 2

Great as a primary or back-up instrument for recreational or more experienced divers

- ▶ Pressure gauge 400bar
- ▶ Depth gauge 60m with parabolic scale & maximum depth indicator
- ▶ Lightweight and compact
- ▶ Loop on case to attach a safety lanyard
- ▶ Can attach C-1 compass (sold separately)
- ▶ Fluorescent dials

Item No.	Detail
X05.023.210	U-line Console 2

U-LINE PRESSURE GAUGE

A useful pressure gauge and a reliable backup system

- ▶ S Rated to 400bar
- ▶ Low Pressure 50bar red area for easy visibility
- ▶ Luminous dial for visibility even in low-light or night conditions.
- ▶ Lightweight but robust nylon protective housing
- ▶ 90cm HP Hose
- ▶ Can attach C-1 compass which is sold separately
- ▶ Fluorescent dials

Item No.	Detail
X05.023.112	U-line Pressure Gauge

FS-2 COMPASS & RETRACTORS

FS-2 provides a unique tilt angle of at least up to 35 degrees, making it easier to read & operate in most any position

- ▶ Floating magnet separate from the compass rose
- ▶ Greater angle of operating freedom than conventional compasses
- ▶ Northern & Southern hemispheres compatible
- ▶ Scratch-resistant and durable oil-filled polycarbonate case
- ▶ Highly luminous dial for low light conditions
- ▶ Side view window for easy and accurate navigation
- ▶ Available in wrist model or in retractor model for easy attachment

EON STEEL

The new Suunto Eon Steel is a fully customizable colour screen dive computer utilizing the Suunto Fused RGBM algorithm. The computer is housed in an advanced composite case with a brushed stainless steel bezel.

The Suunto Brightsee™ colour display is protected by a strong Xensation™ glass screen (German equivalent to Gorilla glass). Easy attachment with either an elastomer strap or bungee cord. Rechargeable battery with 23hrs dive time and fully recharged in just 3hrs.

- ▶ Easy to read and use color display (Brightsee™ technology)
- ▶ Full customization – modes, features, display, physical
- ▶ Steel bezel (grade 316L)
- ▶ Xensation™ glass
- ▶ Hard composite case (enhanced with extra glass fiber)
- ▶ Protective rubber boot included
- ▶ Advanced media isolated pressure sensor
- ▶ Full decompression algorithm - Suunto Fused™ RGBM
- ▶ Air / Nitrox / Trimix support
- ▶ Multi-gas diving (up to 10 gases)
- ▶ Possible to use as gauge / bottom timer
- ▶ Integrated tilt-compensated 3D digital compass
- ▶ Wireless air integration up to 10 PODs*
- ▶ User updatable firmware
- ▶ Works with DM5 PC/Mac compatible software

(*POD = peripheral observation device, in this case refers to wireless air transmitter)

DX TITANIUM (BLACK or SILVER)

- ▶ Titanium case with scratch resistant sapphire crystal glass
- ▶ With titanium bracelet or elastomer strap (Optional)
- ▶ New, advanced Suunto Fused™ RGBM for rebreather, technical and recreational diving
- ▶ Gas-switching between up to 8 gases
- ▶ Trimix support including helium & oxygen
- ▶ Four dive modes: air, mixed gas, gauge, CCR
- ▶ Integrated tilt-compensated 3D digital compass
- ▶ Optional wireless air integration (Transmitter)
- ▶ Included USB interface cable – detailed graphical logs on PC/MAC with Suunto DM5 software

For rebreather diving:

- ▶ Dedicated CCR mode
- ▶ Configure up to 3 different diluents
- ▶ Adjustable high and low set points
- ▶ Automatic set points switching at specified depths
- ▶ Possibility to switch to open circuit mode in case of bailout

PROFILE 0.5mm

- ▶ 0.5mm nylon neoprene outside for durability and Silverskin inside for easy wear. Silverskin is an ultra-smooth interior finish. It consists of a cell finish with 'metalite' coating for extra warmth retention. It dries fast and seals extremely well. It is also used on hood and glove interiors
- ▶ Non-chaffing flat seams for insured comfort directly against your skin. Flat seam construction is a stitching pattern that provides comfort, strength and flexibility on warm water suits
- ▶ Thumb and foot straps, for added convenience
- ▶ Back zipper for great ergonomics
- ▶ Men's and women's dedicated sizes and colours

MEN'S

Item No.	Detail
X63436	0.5mm (S - XXXL)

WOMEN'S

Item No.	Detail

PROFILE STEAMER 3mm

- ▶ Back zipper steamer for good water sealing and great ergonomic look and fit
- ▶ Smooth-cut collar neck line provides unprecedented comfort compared to traditional roll edged collars
- ▶ Double blind stitched outer seams and single blind stitched inner seams for durability and comfort
- ▶ Metal main zipper slider is sturdy yet easy to operate
- ▶ Nylon webbing thumb loop at base of all back zippers for easy donning
- ▶ Integrated tatex Kneepads offer abrasion resistance

* Titanium: Extreme resistance to corrosion with durable edge
 ** Stainless Steel: Excellent cutting edge & high resistance to rust

S1 CARBON FINNS

- ▶ Super powerful high performing blades
- ▶ Hydrodynamic shape
- ▶ Ultra soft foot pocket
- ▶ Ultimate power transmission (inelastic band)
- ▶ Foot pockets, blades and side rails are designed individually offering maximum performance
- ▶ 99% carbon
- ▶ Weight: 1.3kg
- ▶ Sizes: 36-48

Item No.	Detail
G825.160...	S1 Carbon Fins

SUBGEAR

S2 CARBON FINNS

- ▶ Massive power at a value price
- ▶ Hydrodynamic shape
- ▶ Ultra soft foot pocket
- ▶ Ultimate power transmission (inelastic band)
- ▶ Carbon and fibre glass material
- ▶ Weight: 1.3kg
- ▶ Sizes: 36-48

Item No.	Detail
G825.161...	S2 Carbon Fins

SUBGEAR

STREAM PRO FINNS

- ▶ Comfy foot pocket
- ▶ Long flexible blade for speed and agility
- ▶ Ribbed blade channels for increased efficiency
- ▶ Convenient pull tab on the heel of the foot pocket for ease of donning and doffing
- ▶ Appropriate for all skill levels
- ▶ Sizes from 40-48

Item No.	Detail
G825.026...	Stream Pro Fins

SUBGEAR

M1 APNEA CARBON MONO FINNS

- ▶ High performance mono fin
- ▶ Carbon and fiberglass materials
- ▶ Developed in association with world-record setting freedivers
- ▶ Exceptionally comfortable foot pocket designed to accommodate long training sessions
- ▶ Sizes 36-38 to 44-46

Item No.	Detail
G825.162...	M1 Apnea Carbon Mono Fin

SUBGEAR

SHAKER w. MAGNET & HOOK

- ▶ Shaker comes with a strong magnet stop that keeps the ball in place without sound or movement.
- ▶ By simply shaking a loud audible tone is made to attract attention
- ▶ BCD Clip Attachment

POSEIDON SE7EN

THE NEXT GENERATION REBREATHER

When purchasing your POSEIDON SE7EN you will have the opportunity to specify the performance of your unit from the very start!

You can either choose to purchase a Recreational POSEIDON SE7EN or a Technical POSEIDON SE7EN with different levels of performance. Remember that you can always choose to disable the technical function in your Poseidon Smart Battery and dive it as a normal recreational rebreather. Also, you can always upgrade your recreational rebreather to technical later, if you wish. Literally, there are no limits with the POSEIDON SE7EN.

Poseidon recommends the following specifications when going for either the recreational or technical version of the POSEIDON SE7EN.

1. RECREATIONAL POSEIDON SE7EN

2. REC 40 Battery
3. Aluminum or Steel tanks depending on cold or warm water diving
4. Rebreather BCD or Recreational Counter Lungs
5. Tank Band Standard, Tank Strap & Buckle or Cylinder QMR
6. QMR or 11 Inch Adaptor
7. Octopus or Bail-out kit, depending if you want to dive to 18m / 59ft or 30m / 98ft
8. Rebreather Wing & Harness or One Wing & Harness

1. TECHNICAL POSEIDON SE7EN

2. DECO 40, TRIMIX 48, TRIMIX 60 OR DEEP (appropriate training is needed prior to purchase)
3. Aluminum or Steel tanks depending on cold or warm water diving.
4. DECO 40 & TRIMIX 48 – Rebreather BCD or Recreational Counter Lungs. TRIMIX 48, TRIMIX 60 or DEEP – Tech Counter Lungs
5. Tank Band Standard, Tank Strap & Buckle or Cylinder QMR
6. QMR or 11 Inch Adaptor
7. Bail-out kit
8. Rebreather Wing & Harness or One Wing & Harness

Remember to have a gauntlet, pre-packed scrubber, spare parts, oxygen sensors, multitool and disinfectant with you on every dive.

REBREATHER BCD

The rebreather BCD is the first of its kind and features include integrated exchangeable lungs, weight system and the Poseidon individual patch system. The rebreather BCD is constructed to the highest quality and durability using ballistic nylon, YKK zippers and hand crafted detailing. Available in 4 colors.

Integrated counter lungs, Integrated weightpockets, case for optional crotch strap, velcro for patches or gauntlet.

Sizes: XS, S, M, L, XL

Colours: Blue, Red, Black & Grey

AIR STORAGE AND PURIFICATION

B-KOOL

The B-KOOL refrigeration dryer from BAUER considerably reduces the running costs of the compressor whilst protecting the environment at the same time.

At locations with particularly high ambient temperatures, B-KOOL assures a remarkably longer life time of the filter cartridge. You will benefit from a lower cost of purchase and storage of filter cartridges, a longer uninterrupted compressor operation and a lower consumption of filter cartridges.

- ▶ 200 - 680 l/min
- ▶ 100 - 350bar
- ▶ Up to 11 times longer life for your filter cartridges!
- ▶ Environmentally sound
- ▶ Integrated or as stand-alone version
- ▶ Easy to retrofit

50 Liter Pressure Vessel with valve
300bar working pressure
Steel cylinders with 10 year Hydro test
Can be connected to custom specifications

*Price per cylinder Inc valve

Dive Supply's work shop facilities can clean, Hydro test & certify cylinders of all sizes

DIN VALVE FOR AIR BANK

MAB900 Din Valve 300bar for Air Bank

BAUER PureAir Certification

"PureAir – Safe Diving": High quality breathing air is the most important element of your diving equipment. Insufficiently or even non-filtered air from the compressor may jeopardize the health & even the life of any sports diver. The **BAUER PureAir Campaign** offers any diver an easy to use guide for selecting trustworthy filling stations. By choosing to use **BAUER** state-of-the-art technology diving centers are able to meet the highest standards of Air Quality and are recognized with the award of the **BAUER Pure Air seal**.

The exclusive **BAUER PureAir Seal** guarantees any diver that he or she really receives only the purest breathing air. www.bauerpureair.com/diving

To find out how to get your **BAUER PureAir Certification** please contact our Sales & Service team.

JUNIOR II COMPRESSOR

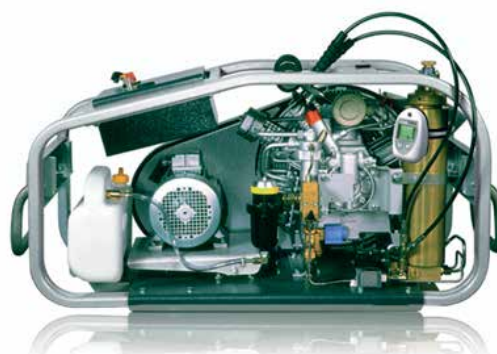

The most compact & highly mobile model in our diving compressor range. Due to its toughness & reliability the JUNIOR has become a global classic. JUNIOR II offers an even more compact design & numerous improvements in details. The patented TRIPLEX filter system guarantees purest breathing air according to DIN EN 12021.

Now available with optional automatic condensate drain and final pressure switch off.

MARINER 200

With 200 l/min. It is the most versatile among the new units of the PROFI-LINE II. Crash frame in series.

MARINER 250

Even more performance & equipped with the TRIPLEX P31 / P41 filter in series.

MARINER 320

With 320 l/min. the new Mariner 320 is the most powerful portable compressor worldwide!

Our new POSEIDON EDITION stands for an excellent ratio of price to capacity at very high quality. This product range has been developed for uncomplicated operation combining proven core components from BAUER with a simple, but robust chassis.

- › 100 l/min
- › 225 / 330bar

The PE 100 is by far the smallest & lightest compressor unit of the PE range. With its three drive variants petrol, three-phase & single-phase alternating current it is suitable for a wide variety of applications, whether ashore, in vehicles or on the high seas.

- › 200 - 300 l/min
- › 225 / 330bar

The PE 200 - 300-TE models offer the optimum weight / price ratio. Owing to their compact construction, the plants are easy to transport & to load onto vehicles. The oil pump allows inclinations up to 15°, therefore making these models most suitable for use on board of ships.

- › 300 - 850 l/min
- › 225 / 330 / 420bar

Our new POSEIDON EDITION stands for an excellent ratio of price to capacity at very high quality. The new generation of the VE range excels through its high delivery rates of up to 850 l/min. Tailored for breathing protection and scuba diving requirements, the new compressor control offers quick and easy access to all important functions.

- › 200 - 300 l/min
- › 225 / 330bar

The PE 200 - 300-HE horizontal models are by far the most compact high pressure breathing air compressors in their class. Owing to the space-saving arrangement of block & drive, the HE range requires a minimum of floor space in spite of its high throughputs. The standard version comes already equipped with automatic condensate drain & easy-to-use control.

INDIAN OCEAN REEF GUIDE

By Helmut Debelius

Maldives - Sri Lanka - Thailand**South Africa - Mauritius****Madagascar - East Africa - Seychelles**

The author made his first dives in tropical waters around Sri Lanka 25 years ago. Since then he explored the whole Indian Ocean with his camera, diving not only in the tourist centers like the Maldives or Seychelles, but also taking UW-Photos at remote islands like Cocos-Keeling in the East or Aldabra in the West. The results are shown in this book including more than 1,000 photos from the natural habitat of the marine animals. Special emphasis was given to rare species like sharks & rays.

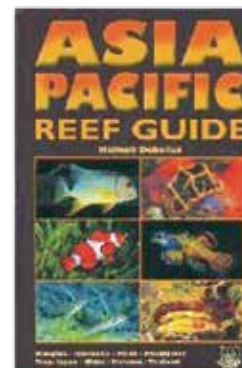

K1125 ENGLISH

ASIA PACIFIC REEF GUIDE

By Helmut Debelius

Malaysia - Indonesia - Palau**Philippines - Trop. Japan****China - Vietnam - Thailand**

Today the coral reefs of South East Asia harbour the greatest species diversity of all Oceans. This is true not only for fishes but also for invertebrates because the species from the coral world radiated from the triangle of the Philippines, Malaysia & Indonesia. 20,000 Islands & innumerable coral reefs are located in the region where still many new species are discovered. This book focuses on the coastal fauna which most divers & snorkellers see first.

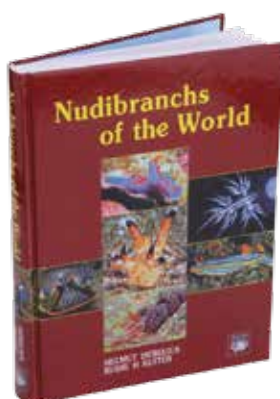

K1117 ENGLISH

NUDIBRANCHS OF THE WORLD

By Helmut Debelius, Rudie H. Kuiter

Nudibranchs come in an amazing array of colours & shapes. Many species are eye-catching while on the other hand some mimic other creatures so well that their discovery is often accidental. Their brilliant colours serve as a warning for potential predators, indicating bad taste or possible poisons, but there are some species that don't have these properties but take advantage by simply looking like they do.

K1121 ENGLISH

SEAHORSES & THEIR RELATIVES

By Rudie H Kuiter

This book is the most comprehensive publication of Seahorses & their relatives ever published.

Includes:

- Over 1,200 spectacular photographs
- All the known living seahorses illustrated together for the first time... about 80 species
- A single full index of common names & scientific names

MPD01 ENGLISH

SIMILAN including KOH BON, KOH TACHAI, RICHELIEU ROCK (2nd Edition)

This revised convenient reference book is a must-have if you're planning a visit to the Similan Islands and surrounding areas. There are also lots of colourful dive site diagrams, descriptions of area dive characteristics, and summaries of practical information you'll need to know before you go.

- Information on the area from topography getting ready for diving there
- Detailed explanation on every dive site
- 20 revised full-colour illustrated underwater maps

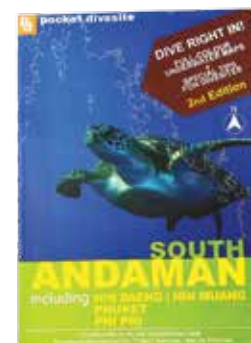

MPD02 ENGLISH

ANDAMAN including HIN DAENG, HIN MUANG, PHUKET, PHI PHI

following on the success of their popular first pocket dive site guidebook, five young Thai divers have just published their second guidebook. This well designed, convenient reference is filled with colourful dive site diagrams, descriptions of sites and what you're likely to encounter, and lots of useful information about travelling to and diving the South Andaman area.

- Information on the area from topography to getting ready for diving there
- Detailed explanation on every dive site
- 27 full-colour illustrated underwater maps
